

## Iron Hill Brewery

Various locations, United States

---

---

Independence Lighting delivered a modern lighting solution for Iron Hill Brewery, enhancing both the atmosphere and functionality of the space. The design combines ambient, task, and accent lighting to create a warm, inviting environment that reflects the brewery's brand.

Contemporary LED fixtures were used to highlight architectural features while improving energy efficiency and reducing maintenance. Careful attention was given to fixture placement and color temperature to ensure visual comfort and consistency throughout the space. The lighting also supports flexibility for both daytime dining and evening service, adapting to the changing needs of the restaurant.

The result is a clean, cohesive lighting design that elevates the overall guest experience while supporting efficient day-to-day operations.
