

## Widener University

Chester, PA, United States  
Spring City Electrical

---

---

Located just outside Philadelphia, Widener has evolved from its early beginnings as a preparatory school into a comprehensive university known for its commitment to the personal and professional success of its students. Independence Lighting supported the lighting upgrade at Widener University, a campus with roots dating back to 1821, by assisting with product selection and overall lighting design to enhance visibility and safety across key areas.

The upgraded lighting helps support Widener's welcoming campus environment, providing improved illumination for students, faculty, and visitors while contributing to a safer and more accessible campus experience.
