

## Wawa Stores

Multiple Locations, FL, United States

---

---

Wawa Stores, a widely recognized convenience and food market chain, continues to expand with locations designed to deliver a consistent and welcoming customer experience.

This project focused exclusively on exterior façade lighting. The lighting design emphasizes brand recognition by creating a distinctive nighttime presence that aligns with Wawa's visual identity. Carefully balanced illumination highlights architectural elements, establishes visual consistency from site to site, and ensures each location remains immediately recognizable after dark.

Independence Lighting supplied façade lighting materials for over 100+ Wawa stores throughout the state of Florida. The result is a cohesive, high-impact exterior presentation that strengthens brand visibility and enhances overall curb appeal.
