

## Disney's Grand Californian Hotel & Spa

Anaheim, CA, United States

---

---

Just steps from Disneyland, the Villas at Disney's Grand Californian Hotel & Spa blend residential comfort with an elevated resort experience. In the villa kitchens, under-cabinet lighting was thoughtfully integrated to provide both warmth and functionality while aligning with the resort's Craftsman-inspired design.

Discreet, concealed fixtures deliver consistent, glare-free illumination across countertops and backsplash areas, improving task visibility without detracting from the natural beauty of the wood cabinetry. Independence Lighting provided almost 700 linear feet of LED under-cabinet lighting, helping bring this seamless and inviting kitchen environment to life.
