

Pizza by Elizabeths

Greenville, DE, United States

Located in Greenville, Pizza by Elizabeths is a vibrant dining destination where eclectic design meets refined elegance. Known for its bold color palette, rustic architectural accents, and glamorous decorative details, the restaurant offers an atmosphere as distinctive as its menu.

Independence Lighting contributed to the layered lighting environment that helps define the space's character. Blending vintage-style luminaires with modern pendants, the lighting design enhances texture, highlights architectural features, and creates an inviting ambiance throughout the 125-seat dining room. Each fixture was selected to complement the restaurant's expressive aesthetic while maintaining comfortable, functional illumination for guests. The result is a cohesive lighting scheme that enhances both atmosphere and identity, transforming every visit into a memorable dining experience.
