

## Benjamin Franklin Parkway

Philadelphia, PA, United States  
Spring City Electrical

---

---

Stretching from Logan Circle to the Philadelphia Museum of Art, the Benjamin Franklin Parkway is one of Philadelphia's most iconic boulevards and a cultural gateway to the city. Lined with trees, fountains, monuments, and world-renowned museums, the Parkway welcomes visitors from around the globe.

Enhancing this international atmosphere are lighting poles manufactured by Spring City Electrical, proudly decorated with flags representing countries from around the world. These distinctive poles contribute to the Parkway's vibrant streetscape while celebrating the global cultures reflected in Philadelphia's many cultural institutions.

Together, the elegant lighting infrastructure and colorful flag displays help create a welcoming and visually striking corridor that connects residents and visitors to the heart of the city's arts and cultural district.
